

Product Information

The **PT-15** is a high quality technologically advanced low cost manual press, ideal for most users. The swing head operation gives a perfect view of the transfer and garment allowing accurate and easy application, along with safety of operation.

Fitted with our unique advanced computerised controller to accurately monitor both temperature and time.

Pressure adjustment is by a fingertip control knob making this machine ideal for light, medium and heavy pressure requirements.

The **PT-15** is a manually operated heat press for transfer printing and material fusing.

The work area of the **PT-15** is 38 x 50 cm (15 x 20") but machines may have, to special order, 5 optional smaller sized interchangeable worktables of different sizes and various shapes:

- 15.3 x 15.3 cm (6 x 6")
- 20.5 x 20.5 cm (8 x 8")
- 25.4 x 25.4 cm (10 x 10")
- 30.5 x 30.5 cm (12 x 12")
- 38.0 x 38.0 cm (15 x 15")

The **PT-15** bears the CE Marking.

Technical Data

European Version

Power Consumption	2500 Watts
Power Supply	230 Volts AC
Working temperature	70-230°C
Display Timer Range	0 - 10 min
Machine height open	65 cm
Machine height closed	35 cm
Machine width	51 cm
Machine width loading	94 cm
Machine depth	89 cm
Machine depth loading	120 cm
Work area required	110 x 92 x 64 cm
Weight export packed	52 kg
Size export packed	91 (L) x 62 (B) x 42 (H) cm
Net weight	45 kg
Press pad dimensions	38 x 50 cm
Fuses	11 A
A-weighted noise level	< 70 dB(A)
